

**INDIRA GANDHI NATIONAL OPEN UNIVERSITY
REGIONAL CENTRE MUMBAI
STATUS OF MAPC SYNOPSIS DECEMBER 2024**

S N	ENR. NO	NAME	PROG	COURS E	Approved/ Not Approved/ Approved with Modificatio n	Remarks
1	230064730 5	Harleen Kaur	MAED U	MESP01	Approved with modification s	Methodology is incorrect. Title suggests it should be an experimental study. For survey it should be Study of the soft skills utilized by English teachers during the teaching learning process. Tool should be prepared carefully
2	225211839 2	Mrs .Dhanlaxm i Jeyarajan	MAED U	MESP01		Title needs change: Behavioral

					Approved with modifications	traits of students and its effects on their Academic Achievement : A Comparative Study of Working and Non-Working Mothers.
3	2253866594	Priyanka Shukla	MAED U	MESP01	Approved with modifications	Examining Stress Factors and Management Approaches in the young generation The age group to be specified. The proposal is written in past tense. Is the study conducted ???
4	2252066468	Dipalee N. Fegade	MAED U	MESP01	Approved	
5	2200586736	Vidya Ashok Udamale	MAED U	MESP01		The title is fine but its not matching the objectives as the

					Approved with Modifications	objectives are written as it's a correlational study and variables not specified and parenting is added .
6	2001283341	Aarya Patil	MAED U	MESP01	Approved	
7	2301415650	REMU PANDYA	MAED U	MESP01	Approved	
8	2300011951	SALMA BEGUM	MAED U	MESP01	Approved	
9	2201616835	V. PRABHA	MAED U	MESP01	Approved with modifications	Title of the research is not the same on first page and in the proposal. Objectives to be written properly Impact of Screen time on socio-Emotional skills of students Specify the skills or write wellbeing instead of

						skills. Operationaliz e properly Age group of students can be written in delimitations of the study. Justify why only age group 6-9 Why post pandemic??
10	235151693 9	RAO VIDYA BHASKA R	MAED U	MESP01	Approved with modification s	Suggested title: A study on the causes of Examination stress among students of standard 10 th The tool may be more comprehensiv e with a number of factors included like the social emotional family school related time related personal factors etc. SSC board may be specified in delimitation.

						Please do more reviews as studies on the chosen topics are done so change the variables and do it
11	225475814 6	Sheetal Bhimrao Palkirti	MAED U	MESP01	Approved with modifications	Preschool education what all is taught has to be seen and then the tool should be made according to the skills learnt by children numeracy literacy shapes colours social skills . The tool has generic questions like cognitive skills social skills etc By writing task specific questions you come to know if the skills are developed and then

						overall impact. Also instead of giving questionnaire to the students , the questionnaire should be given to the parents on preschool children where they can tell you the impact the school is making on the children Accordingly the changes can be made.
